

The Futuristic, Sustainable Cities Inspired by Arcology

Submitted by [AA](#) [1] on 19 September, 2014 - 10:00

By 2050, the world's population is estimated to grow to 9.6 billion, with 66% living in cities. How can we accommodate urbanization while avoiding costly urban sprawl that can lead to unequal access to transport and increased greenhouse gas emissions? The efficient, dense, self-contained cities of arcology.[read more](#) [2]
