

Safety first: some welcome advice

Submitted by [AA](#) [1] on 4 November, 2014 - 14:49

Contact adhesives: Put your health first When carrying out building work, improvements or maintenance, it's essential to take proper safety precautions. When using contact adhesives, make sure to choose products that won't put your health (or that of anyone assisting you) at risk. Some substances in DIY products can be harmful. Toluene is a good example.
