

Lagos Unveils Africa's Biggest Deep Sea Port

Submitted by [AA](#) [1] on 17 July, 2015 - 16:15

The Lagos State Government Thursday disclosed that it would commence the construction of the biggest deep sea port in Africa, which it said, would be situated on over 1,000 hectares of land in Badagry with the capacity to create thousands of employment opportunities.

The state government also disclosed that a good number of foreign and domestic investors including Maersk Group "have already signed on to the project," thereby suggesting that the state would have largest cargo container port in Africa.
