

# Create Jobs Out of Demand for Houses

Submitted by [AA](#) [1] on 29 June, 2011 - 12:06

One of the major factors in determining real estate prices is the cost of cement. In Uganda, we have two leading cement factories of Tororo and Hima. In 2009, the total output for the two factories was 1,162,241 metric tons while imported cement accounted for 566,082 tons. Our local manufacturers exported 390,476 tons into the regional market. (Ubos 2010)
